

CASE STUDY

**WORLDVUE BRINGS COMPLETE  
CONNECTIVITY SOLUTIONS TO  
STAYAPT SUITES NATIONWIDE**

# WORLDVUE

---

Designed as an Apartment-Style Hotel to business, relocation and leisure travelers, stayAPT Suites selects WorldVue technology portfolio including surveillance, secure high-speed Wi-Fi and in-room entertainment. The requirement of security and scalability to increase user experience called WorldVue to perform.

Powered by WorldVue connectivity solution, ImpruviX, stayAPT Suites provides advanced technology solutions like high-speed Wi-Fi to all guests. This partnership extends beyond traditional hotel in-room entertainment to include WorldVue Wired & Wireless Networks, Connectivity, CCTV Surveillance, Low Voltage, and Managed Wi-Fi Services.

This fast-growing U.S. hotel brand was seeking a turn-key partner to service their portfolio from inside the room to property wide. With a winning concept in hand and the backing of RG Nets., Cambium Networks, Eagle Eye Networks and the WorldVue Low Voltage team, WorldVue set out to create plans for implementing a total solution.

*“Technology is the backbone of the guest experience nervous system. When It is out of alignment, the guest experiences pain. When the technology is working great, the guest experience is peace of mind.”*

**Brian Mangum; CIO, stayAPT Suites**

# SINGLE-SOURCE , CUSTOMIZABLE AND SECURE CONNECTIVITY

Consistency and value create a winning network connectivity solution and build a new brand reputation from the ground up.

## THE CONCEPT

As demand for long-term lodging continues to grow, stayAPT Suites provides a unique offering in the marketplace with its apartment-style suites that offer guests a more residential feeling experience. Their dedication to the guest experience motivated the partnership with WorldVue. Digital Infrastructure advances the guest experience while reducing the stayAPT Suites bottom line with energy- efficient solutions and operational improvements. It provides a quality connection to the property and then within in to service guests and their devices.

Budget was a consideration of significant importance. With an affordable suites hotel brand, the need for a reliable solution that was also cost effective was of great value to the client- but not at the sacrifice of performance or guest experience. Leaning on RG Nets. for supplying training and support on the RXG Net Device allowed for multiple partnerships to merge and create an opportunity for bulk pricing on a truly sophisticated solution and product- which equated to major cost savings for this client on a very high-end solution.

### stayAPT Suites was seeking a partner who could provide:

- Great consistency across the brand for unified reputation building and user experience
- A single-source solution that minimizes complexity and expense
- Multiple elements of guest experience integrated into one network connectivity solution, with mobile access and app performance as key indicators of success
- A secure connection for guests to access their streaming apps, ensuring they feel at home

*“The word “no” is not in WorldVue's playbook. They always find a way to provide a solution for us when we ask.”*

**Brian Mangum;  
CIO, stayAPT Suites**

# STEPS TO BUILDING A SOLID INFRASTRUCTURE

---

- Comprehensive consult with multiple involved teams for the single-source solutions the brand required
- Site survey to determine the correct solutions to power their property
- Blueprinting and predictive mapping to create complete connectivity across each hotel site
- Staging and installation
- Post install training with each site team to ensure ease of use, proper authentication, and system go-live readiness for each location
- WorldVue also designed, deployed and manages physical security features across all properties, integrating virtual and physical security into an overall solution outline
- The solution helps position this client as an emerging leader in their industry, offering the best in-room entertainment and connectivity options around

## WORLDVUE CONNECTIVITY AND MANAGED WI-FI SERVICES

WorldVue's solution offers unparalleled security segmentation and instant onboarding, making it an obvious choice for clients like this. With tangible ROI and monetization opportunities built into the solution, as well as the business value of lower cost of ownership (without sacrificing quality or security), WorldVue delivers industry-leading service and features into new verticals that have never had access to this level of solution in previous competitors' price points.

The WorldVue system provides robust, secure high-speed connectivity solutions for stayAPT Suites. To provide the best guest experience, stayAPT Suites promises high-speed, quality internet for all guests. In high-density environments like hotels, quality wireless bandwidth is crucial as the demand for reliable internet access increases daily. Advanced connectivity through Connectivity makes guests at stayAPT Suites feel less restricted and more at home.

WorldVue Connectivity is a long-term, flexible solution for extended hotel properties. An agnostic circuit to the property system complete with SD-WAN functionality, WorldVue Connectivity reduces wireless redundancy and provides increased bandwidth and faster internet speeds. Furthermore, WorldVue Connectivity is a managed Wi-Fi service for stayAPT Suites, meaning all the installation, maintenance, and network monitoring is performed off-site by WorldVue's hand-selected industry professionals.

## LOW VOLTAGE

From preliminary stages of design and planning to cabling install, the WorldVue team of experts worked with stayAPT Suites to review their cabling specifics and electrical blueprints to fully custom design the wiring solution. All new stayAPT Suites properties are designed with low voltage cabling to deliver a network infrastructure that can easily scale for high bandwidth demands of guest Wi-Fi, in-room entertainment, and guest streaming devices.

## SURVEILLANCE SOLUTIONS

Security is always a key factor in hospitality. With thousands of travelers coming through the hotel doors each year, stayAPT Suites wanted to ensure a safe environment for their guests. WorldVue and Eagle Eye Networks joined to streamline video surveillance with remote access and the ability to quickly navigate between cameras across their portfolio. The advanced analytics uncover ways to improve guests visits by monitoring the number of guests and staff entering and exiting the building and discovering traffic flow patterns. stayAPT Suites can now protect vulnerable areas, reduce, and proactively prevent thefts.

## IN-ROOM ENTERTAINMENT

With the long-term lodging traveler in mind, stayAPT Suites looked to the WorldVue HUB solution to enable guests to not only watch live TV programming but securely login to their streaming apps such as Netflix, YouTube, ShowTime and more. All credentials are cleared upon check out to decrease security concerns. WorldVue HUB is powered by LG set-top-box made for hospitality, which sits in the back of the TV, out of sight. Having an advanced in-room entertainment platform allows stayAPT Suites to provide up-to-date entertainment but also set a foundation to build on as new apps are released.

## IN CONCLUSION

With innovative planning, methodical execution, and turn-key management of the solution, WorldVue created a high degree of simplicity and coverage for the brand's growing number of new U.S. locations. This is of course, creating seamless user experience, ease of authentication, brand standardization, and other great benefits — but it's also building the reputation of the overall hotel brand from the ground up, creating customer satisfaction and numerous positive reviews.

# STAYAPT SUITES UNIQUE AMENITIES

---

## EXTENSIVE SPACE & CAPABILITIES

Each 500+ square-foot suite includes a separate living room, bedroom and full-size kitchen. The living room is designed for ultimate comfort with a sleeper sofa, lounge chair and 55-inch television. The kitchen includes full-size appliances including a full-size refrigerator, stove, oven, microwave, and dishwasher. Each suite includes a separate bedroom with a walk-in closet, television and dedicated workspace.

## COMFORTABLE COMMUNITY DESIGN

All stayAPT Suites locations include a private, outdoor courtyard area featuring natural greenery, soft seating, built-in grill station, and a fire pit - creating a welcoming spot to relax, socialize, or simply get a breath of fresh air.

Other amenities available to stayAPT Suites guests include a gym with top-of-the-line exercise equipment, pet-friendly rooms, and varied length of stay options. Each location includes 24/7 on-site laundry facility equipped with full-size washers and dryers.

## ENTERTAINMENT AND TECHNOLOGICAL AMENITIES

Each stayAPT Suites television is equipped with live TV, premium and on-demand programming, and streaming capabilities from personal devices. Additionally, stayAPT Suites brings guests free, reliable Wi-Fi through WorldVue.
