# WORLDVUE®

# ULTIMATE CAMPUS WIDE CONNECTIVITY

Bring the ultimate internet experience to your campus with WorldVue Digital Infrastructure. Private, secure, dependable campus-wide internet keeps students, faculty and staff connected no matter where they are. The WorldVue Digital Infrastructure solution brings unique capabilities for customization that enable IT Staff to change configurations with ease. Create personal area networks to accommodate students, staff, guests and even events while providing reliable high speed connectivity.

## CAPABILITY.   FLEXIBILITY.   SIMPLICITY.

## CAPABILITY

- Unified campus-wide network
- Secure personal area networks for each user
- High availability network for exceptional reliability
- Native support for thousands of simultaneous connections
- Complex configurations implemented by network admins in minutes instead of hours

## FLEXIBILITY

- Quick and easy configuration changes for short-term events or long-term policy changes
- Custom self-service portal for residents, custom admin portal for management via InstaOn™
- Gaming ready - optimized for devices, consoles and controllers

## SIMPLICITY

- Built for adding new amenities without the need for additional infrastructure
- Zero-touch onboarding - users select and pay for service plans from the portal with instantaneous provisioning
- Plans and policies created and implemented in a simple to use GUI
